

10TH JOYCE NIBLACK MEMORIAL CONFERENCE ON MYELOPROLIFERATIVE NEOPLASMS FEBRUARY 25 & February 26, 2017

Presented by the MPN Education Foundation and the Mayo Clinic

The MPN Education Foundation and the Mayo Clinic invite you to attend the patient-doctor conference in Scottsdale AZ. The conference brings together medical experts in the field with MPN patients and their carers/families, to learn more about the many issues that are faced by those diagnosed with one of these disorders. Additionally, we will cover topics such as genetics, interpreting blood counts, which questions to address with our doctor, coping emotionally with a chronic disease and other issues that can arise because of such a diagnosis.

The conference will take place at the Mayo Clinic in Scottsdale, Arizona in the Ashton Taylor Auditorium, 13400 E Shea Blvd., Scottsdale AZ 85259.

In addition attendees can sign up for a welcome roundtable luncheon which will be held Friday, February 24, 12:00 p.m. at ANCALA Country Club 11700 E. Via Linda Scottsdale, AZ 85259 to enable patients to meet one another and to discuss their experience with Myeloproliferative Neoplasms. Dr. Susan Leclair will address common lab questions immediately following the luncheon.
